ACNE FACIALS

K-GLO offers several proven treatment approaches to combat acne and acne breakouts that are customized to treat each patient's needs and goals. Treatment plans may include an internal and external approach to bringing acne and acne breakouts under control.

HYDRAFACIAL

HydraFacial's patented technology cleanses, exfoliates, and hydrates your skin!

HydraFacial's gentle exfoliation removes dull, dead skin to uncover a new layer of skin before painless suction removes debris and impurities. Once your skin has been cleansed, antioxidants and peptides are infused into the skin to maximize your glow.

PRP FOR HAIR LOSS

PRP stands for platelet-rich plasma, and it's a serum that harnesses the natural healing power of your blood. PRP hair restoration involves taking a small amount of your blood and processing it to concentrate the platelets, producing a highly potent serum that we can use to help dormant hair follicles to begin a new, healthy hair growth cycle.

- Scalp PRP \$750/session

MICRONEEDLING

Microneedling has been known for many years as an effective way to rejuvenate your skin and reduce the signs of aging, but the revolutionary SkinPen takes this technology to a whole new level. With as few as three quick treatments, you can dramatically reduce the appearance of acne scars, tighten and smooth skin, and trigger natural skin regeneration for a fresh, healthy glow.
